

## JOHNSON CONSULTING SERVICES

July 31<sup>st</sup>, 2008

ASQ Cincinnati Quality Award Committee  
Re: Letter of Endorsement

Johnson Consulting Services fully supports the ASQ Section and the Healthcare Quality Award Program.

As a consultant with over 25 years of experience working on project management and process improvement projects I have witnessed firsthand the significant benefits derived, both in-house and with our clients, from the implementation of a structured methodology for solving problems and implementing solutions. The purpose of the Annual Quality Award is to demonstrate the benefits of these quality improvement methods as well as provide local healthcare organizations the opportunity to showcase the excellent work they are doing and share some of their tools and techniques.

**JCS** is proud to be a corporate sponsor of ASQ with their 60 year history of providing educational and support services to the Greater Cincinnati Community. Our Section serves over 600 members who represent a broad range of industries including manufacturing, service, healthcare, education, consulting and government.

Some of the terrific benefits that our members have taken advantage of over the years include educational seminars, meetings, social events, field trips to local companies, educational books and articles, quality improvement tools, and networking. We have also found it extremely beneficial to network with the many different types of professionals in our Section including managers, engineers, directors, technicians, and consultants, as well as company presidents and owners.

**JCS** has made a long-term commitment to ASQ and will participate in the annual healthcare quality award program. We encourage all healthcare related organizations to do the same.

Sincerely,

Bruce W. Johnson, M.S., P.M.P, CQE  
President, Johnson Consulting Services  
Chairman, ASQ Cincinnati Section
